

Stand Up , Hand Up, Pair Up Activity

Directions: Copy as many cards from this sheet as needed for your class.

Each student is given a card with a question. When instructed, the students stand up, put one hand up, and quickly find a partner. They “high 5” their partner and ask the question on their card. If the partner answers incorrectly, the student reads the correct answer to them. The students swap cards and put their hand up to find another partner.

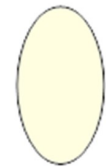

Q: Use your own words to explain the First Mover proof.

A: (answers will vary) Anything moved is moved by something else.

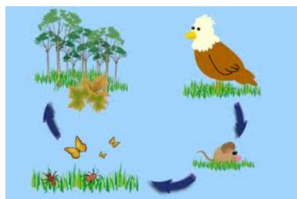

Q: Use your own words to explain the First Cause proof.

A: (answers will vary) Anything caused is caused by something else.

Q: Use your own words to explain the Necessary Being proof.

A: (answers will vary) Everything is dependent on something else for existence.

Q: Use your own words to explain the Greatest Being proof.

A: (answers will vary) There is a source of all greatness—God is the best of everything.
